MISCELLANEOUS GARDEN SEED

Regardless of the kind of garden seed you wish, we can likely supply you reasonably—where you can use 5 lbs. or more of one kind or variety—including Pole Snap Beans, Bush & Pole Butter Beans, Okra, Corn, Turnip, Mustard, Squash, etc. What do you want and how much?

OUR SEED LABORATORY

We have had a Seed Laboratory for years to check and test the seed we buy and sell. This is for your protection and ours, and we know you appreciate the great value of this. Our analyst, Earl Lott, is a Registered Senior Member of the Society of Commercial Seed Technologists. His tests are acceptable to ASC in all states and to other agencies. There are only 107 Senior Analysts in the U. S.

WE FURNISH TESTS FOR ASC IF WANTED. We do COMMERCIAL TESTING also. May we do some for you? You will like our accuracy, promptness and reasonable rates. Show lot numbers on your representative samples. Mark them for "Seed Laboratory." We shall make complete tests unless you specify only purity or only germination. Will send you envelopes for mailing samples to us upon request.

Above items widely popular as feed for quail, turkey, deer, etc. ASC has liberal payment rates to aid farmers to plant. Examples: Beggarweed .40 lb., Bi-Color .75, Partridge Peas .75, Reseeding Cowpeas .30 and Chufas .10. For seeding rates and cost-share rates on these and other items that we sell, contact your local ASC office.					

MIDGET GARDEN DUSTER

Crank-type, made of aluminum @ \$11.35 ea.
Extension tube to apply dust underneath low plants & to tops of small trees @ 1.15 ea.

HYBRID SEED CORN

All varieties listed below are NORMAL CYTOPLASM (hand-detasseled)—and such corn withstood the Southern Corn Leaf Blight in 1970. All in 50-lb. paper bags and treated, except DeKalb in 56-lb. (1 bu.) Coker is certified. We are being prorated on all varieties. Therefore, we must necessarily accept all orders SUBJECT TO AVAILABILITY OF THE CORN. WE ARE ALREADY OVERSOLD ON MOST VARIETIES. However, we have ample DeKalb Abati, LF, yellow—so order what you want. Abati is a flint corn from Argentina of 100% NORMAL CYTOPLASM, capable of yielding 100 bu. per acre if well fertilized & 18-20,000 plants per acre. Runs 1 to 2% higher in protein than other hybrids. Excellent corn for grain & silage. Also we now have similar "flint" corn put out by Funk in 50's. DeKalb is in 56's. OUR ADVICE: order some DeKalb or Funk's while you can get it.

	Rounds	Flats
Coker S-48 (y) Stunt R., MR, LR	26.40	Out
Coker 71 (y), MR	26.40	Out
